Formerly listed as two 'separate' cars it has been found that NLG93H is in fact Q315RDS because the V5 document of Q315RDS was in the boot of NLG93H...

'Chassisnumber' in the engine bay of NLG93H is 'HD100X001'.

#### History of this car:

1987: Photographs taken at the Nottingham location where one body was bought together with the moulds.

One of these two cars was to become Q315RDS.

Left: This was to become car number 1: Q315 RDS. The red body acquired from the company in Nottingham was painted white.

Photo session for the first brochure.

Then 20 years later (2014) the car is offered for sale.
