<p><i>De Haldane van Pilgrim is de beste replica van de Austin Healey.</i></p> <p><i>De onderhoudsvrije carrosserie van kunststof staat garant voor roestvrij leven, het chassis is stijver dan het origineel en de wielophanging staat garant voor moderne rij-eigenschappen die het origineel niet kan evenaren.</i></p> <p><i>De Ford aandrijflijn is eveneens een stuk moderner en zorgt voor betere prestaties en meer betrouwbaarheid dan het origineel. Verder zijn de opbouw delen zoals bumpers, raam etc... wel origineel van de Austin healey.</i></p> <p><i>Het is bijna niet van echt te onderscheiden.</i></p> <p><i>Je hebt echt nog meer plezier met deze auto dan het origineel en dat voor een fractie van de aanschafprijs en niemand ziet het verschil met een echte..</i></p>

The Austin Healey 100 Haldane Roadster is arguably one of the finer recreations/replicas on the roads in what is seemingly to be an ever decreasing available market – hence prices are rapidly increasing and who knows where they will end with originals often demanding £50k+...

As you can see from the pictures she looks really well. Likewise she starts, drives and sounds just as good.

As with most cars of this age she is not perfect and has one or two very minor imperfections to the body/interior, but really nothing that anybody would seriously worry about, and most definitely nothing that distracts from her overall beauty.

She is fitted with some nice wire wheels to enhance her looks. Slightly wider offset than the steels hence they sit just outside the front arches, possibly to improve on her handling as well as her looks.

Value wise I have seen these rare style of cars advertised for figures well into the £20k, but you'll be pleased to know I am looking for nowhere near these figures.

Please don't ask for a BIN price, if you have a figure in mind then let me know and we'll see what we can do within eBay rules.

To entice a hassle free sale I have set the reserve well below the market value so please oblige by sticking to your side of the bargain should you win the auction.

All in all this is an absolute bargain to be had that you could keep for many years without losing any money, and more than likely add to your investment.

So there it is guys - I hope I've covered most things but if not please feel free to contact me with any further questions you may have and please don't assume anything.

Thank you.

PLEASE NOTE:

Obviously due to storage of my trade vehicles and the very nature of older vehicles, I would suggest a good service/overhaul of all fluids, brakes, rubbers, clutches, pipes, engines and electrics would be advisable and most likely needed in some cases.

Winning bidder to pay £500 non-refundable deposit via Paypal within 24 hrs of auction end!! **Deposit 'MUST' be paid PRIOR to collection!!** This request is purely to deter the day-trippers, hagglers, re-negotiators and winning bidders who feel by their winning of the auction just puts them in the privileged position of having first refusal with the 'option' to buy!!

Obviously a huge apology goes out to all you genuine eBayers who appreciate, understand and follow the correct ethics of the auction, but as like me I'm sure you've had similar frustrations and fully understand the need for my plea..
