In-Car Audio:	AM/FM Stereo, Cassette Player, CD Multichanger, Premium Sound System		

HALDANE HD300

For sale - My cherished replica of the Austin Healey 3000. An absolute stunner. Pristine condition, a real head turner. Just not had the time to use it since buying the business which is a great shame. So reluctantly selling.

Owned and built by me, the car has been Garage stored in a Carcoon which will be included in the sale (original cost £500.00). The Carcoon keeps the car within a zero humidity environment - hence no rust or depreciation, although it is run regularly and occasionally on the road just to keep things moving.

Many, many, long but rewarding hours in the making (over 3,000 hrs). A labour of love for most of it. No expense has been spared. Two shows two wins - one at Stoneleigh.

Soft Top Hood and black leather interior, including new seats and carpeting all upholstered by ex Stratstone's upholsterer's.
Professional paintwork - not gel coat. All chrome bright work bought new. Five Chrome bolt on spoked wheels from Germany including spare.

Car Audio System Alpine TDM-7548R Radio. AlpineMRV-F300 Amplifier
Alpine CHM-5601 CD Changer. ADSC 80 Watt AL6 Front Woofer Speakers
1" Dash Tweeters. Kenwood HQ570 120 Watt rear speakers.
I'm not a boy racer (58yrs young) but I like to hear quality in car music when travelling with the hood down.

Security System Alpine Perimeter security system SEC-8048 with built in shock sensors, isolators & immobilisers. Giving full protection to both the outside and the inside of the car when parked with the Hood down.

The Ford 2.0 litre D.O.H.C. fuel injection engine has been totally rebuilt with bills to prove and has covered just over 10,000mils
Several of the major components from the donor vehicle were used - Engine/Gearbox Dif, rear braking system, wiring loom, ECU, electric windows, along with some of the smaller parts.

Spares include.....
Boot LuggageRack
Manifold 4/1 Exhaust
Front Lucas Spots
Partial Leather hide

I could go on listing endless bits of information about the car and other associated spares, but if you're interested contact me -
Jon 07745 056 409 then I'll go on about it as much as you like. Seriously any questions please ask.

Just to answer some early questions - The car is registered as a Haldane HD300 on the V5. GRP body. It has aWalnut dash with Jaguar Mk2 instruments. Polished Stainless Steel rollover Bar, Jaguar Mk2 Door Handles.
