Item specifics

Condition: Used: An item that has been previously used. The item may have some signs of cosmetic wear, but is fully ... [Read more](#)

Welcome to the sale of my Austin healey 3000 replica produced by haldane which was bought out by pilgrim kitcars. I bought this 12 months ago but I havnt the time to build it with changes in my life. The shell is very good quality fibreglass, it's very sturdy, someone painted it the funny colour before I got it. It has a spaceframe chassis with double wishbones all round and adjustable coil overs. Aparantly they handle really well. It's set up to take a ford pinto engine, it comes with a head and cam and a couple of carbs with manifolds, one of the carbs is a Nikki carb with glass for viewing the float chamber. There is a ford type 9 gearbox. Just need a pinto bottom end. There is a clutch, a propshaft, and a sierra diff is fitted with the shortened driveshafts. There is a purpose built petrol tank that sits under the rear bulkhead. It has an escort steering rack fitted. There is a brake servo fitted and a sierra loom comes with the car too, a couple of spare wishbones. There are sierra brakes on the car. There is no doors bonnet or boot although they are available from pilgrim I phoned and spoke to them and did see an advert on here the other day. My pictures include a finished car. Would make a lovely thing fitted and I considered a BMW e46 330 as a donor with a change of engine mounts. Any questions call 07734 711242. Thanks for looking and happy bidding.
