

## Haldane/Pilgrim HD300

### Owned by Uwe Leppin, Germany

My name is Uwe Leppin and I am from Germany and bought my Pilgrim/Haldane 3000 last year.

It is a RHD and came over from UK in 2008 and was the last years owned by an older engineer, which not really maintained the car.

After some challenges I now start to maintain and to renewal and I am interested in the history of the car, former owners or who has built this car.

Would be great if you can add the information on your Website.

Here are the details:

Registration: A789UTG (UK) now DIN-AH60H (Germany)

Built in 1983, that date I can not believe, more realistic is 1993, so unknown

Chassis number: HMC97 0001 FL

Engine: Ford Cologne V6 2.8

Color: Ice blue metallic over old english white
